Immersive, hypnotic sonic journeys rooted in Berlin techno culture.

INÄN is an Istanbul-based DJ and the Music Director at Marcel Avant, known for crafting immersive, hypnotic sonic journeys rooted in Berlin techno culture. His sound fluidly bridges the gap between raw, driving techno and energetic indie dance, underpinned by deep house and nu disco grooves—typically ranging between 120 and 135 BPM. Balancing hypnotic rhythms with rich melodic depth, his sets are built as patient, evolving musical narratives designed for late-night dancefloors.

A prominent figure in Istanbul's underground scene, INÄN has performed at iconic venues and events such as Klein, Kastel, Blind, Ters Kadıköy, Kiki, Suma Han, and Bonjuk Bay (WhyNot Festival). As the creator and organizer of the **Sound of Berlin** event series, he actively shapes and curates distinctive electronic music experiences.

His acclaimed DJ sets and live recordings, including **Make Love to the Sun**, **Spree-delic Dreams**, and **Solstice Spectrum**, are available on SoundCloud under **@inan.sounds**.
